**SPARKOH! is a unique attraction featuring interactive, family-friendly exhibitions to approach science in a different way.**

This former coal mining site was redesigned by architect Jean Nouvel. Its architecture alone is worth a detour.

Chemistry is all around us. It's all about research and innovation which at Le Pass can be discovered by games. This fantastic interactive playground is sure to sharpen the mind of the little ones.

### **Waouh, a space to dream**

This new way to approach the digital world through sound, light, movement lets you interact with 5 artworks and explore the limit between virtual and reality.

### **La Fabrique à Pixel factory, a space to create**

In this area, Le Pass invites you to let your imagination roam free: 3D printer, vinyl cutter, digital knitter... Your turn to play!

### **L'Expérience Mendeleïev**

A journey to the world of atoms and an immersive visual experience. Use our movements to understand the composition of chemical elements and see how they react...

### **The Adventure Garden**

- The Jardin de la Biodiversité proves perfect to observe the flora and fauna from a hammock, the side of the pond, from the top of a tower, barefoot on the nature trail...
