Interested in a playful and informative activity, or curious gastronome? Go through the valley of the Molinee and its incredible escargotière of Warnant.

The Olli family has embarked on an original culture: breeding snails! When Éric started his trade in Héliciculteur in 1986, he was the only one in Belgium. The farm has 3 greenhouses and 3000 ² of feedlot. Production is currently around 600 000 snails a year!

An experienced guide will make you visit the breeding of the mating to the fattening through the spawning and the hatching. A small tasting is included in this didactic and humorous visit. The tour lasts about 45 minutes

Taste the Products

The Escargotière store is open all year round. You'll find the products of the farm and the terroir: snails, small-grey, terrine, honeys, jams, rapeseed oils, vinegars, duck products, aperitifs ...

Come and have a nice time discovering the snails.
