In this spectacular quarry, visitors can admire the impressively high rooms where the local Recht slate was mined. The 800 m underground trail includes an observation bridge offering a memorable panorama on the site.

The village of Recht (Sankt-Vith) was deeply marked by the mining of schist between the 18th and 20th century, with stone cutting being a well-developed trade.

Your guide will explain, along the visit, the geological characteristics of the mountain and how dangerous working in the mine could be. The museum features a collection of tools and creations made from the local blue stone.

A thrilling event

How about celebrating [Halloween in the mine?](#)

Tip: wear comfortable walking shoes and warm clothes.

Visitors with specific needs

[Please click here](#) to see the list of facilities and activities accessible to visitors with reduced mobility. Wallonia has developed the Access-i program to give travellers a clear understanding of what the infrastructures offer.

Please note, on this site:

- If you have a wheelchair or have difficulties walking: the mine is accessible to motorized wheelchairs or to normal wheelchairs with the help of an accompanying person. Please note a wall is being renovated at the moment: do check with our team before visiting.
- If you are blind or visually impaired: please come with an accompanying person. Audio guides are available in French, English, German and Dutch.
- If you have difficulties understanding: please come with an accompanying person.

The information contained herein is provided as a guide only.

We recommend that you check with the local supplier before you leave.
